

# THE BRANCH 324 BUZZ

Heroes Delivering  
Take Action Edition

## Have you Taken Action?

All of us need to Take Action to save the USPS. It doesn't matter if you are newly hired or getting ready to retire. We need to do our part and help save the USPS.

The NALC has made it very simple to contact your congressional leaders and ask them to support the USPS in the next stimulus package. At the time of this printing, the USPS was included in the latest stimulus package but the bill was just introduced into the House of Representatives and still has a long way to go for approval. The legislation also has many other roadblocks in the way since due to other items listed in the bill.

We all need to push our congressional leaders to keep the USPS package in the bill and not have it pulled out during the political debates that occur in the near future over this particular bill.

We need to email, write letters and call our Colorado representatives and ask for their support. You can go directly to [NALC.org](http://NALC.org) and click on the 'Take Action' picture on the home page.

Take action immediately and often. Send an email one day and then mail out a hard copy letter the next. Try to make phone calls if possible. The 'Take Action' center on the NALC site is very user friendly and only takes a few minutes to complete the tasks.

The future of the USPS will depend on getting this funding in the next stimulus package. We need everyone's support.

If you have any questions, please contact Rick

## How can your family take action?

The NALC has also created a website for our friends and family to use to show their support for the USPS.

**[heroesdelivering.com](http://heroesdelivering.com)**

Please share this with your friends and family. Ask them to go to the website and click on the 'Take Action' button on the home page. They will be then directed to a new page where they can enter additional information.

**-Name**

**-Address**

**-Zip Code**

**-Phone Number**

**-Email**

The website gives an explanation of the funding issues going on with the USPS during this pandemic and why it is so critical for us in the very near future. We need all of the support we can get!

There are also some good videos that have been airing on local channels across the country. We need to get support from all over the United States so that we can keep the USPS strong and keep it going into the future.

Also encourage your family to do this on a regular
