TAKING BEAUTY TO THE NEXT LEVEL...

THE VIBRATIONAL LEVEL

Developed according to the principles of Chinese medicine by Darren Starwynn, O.M.D., Energy Light Rejuvenation works in harmony with the natural energy systems of the body. ELR's exclusive combination of Microcurrent and Therapeutic Light and Color (TLC) re-educates facial muscles and addresses the underlying causes of visible aging. This unique, non-invasive, holistic system takes rejuvenation to the next level by providing whole body renewal with results that go to a new level...

Youthful, glowing skin and a relaxed, energized body!

What makes ELR™ different from other facial rejuvenation treatments?

Everything! Energy Light Rejuvenation stimulates the regeneration of healthy skin tissue by working in harmony with the natural process of the body. ELR is holistic and high-tech. The rejuvenation process of ELR has no negative side effects—no swelling, redness, numbness or flaking. We only offer the side benefit of feeling as great as you look!

What is Microcurrent and is it safe?

Microcurrent is also known as "electro-medicine", and has been used safely and effectively for decades by medical professionals, including chiropractors, physical therapists and MDs, to treat conditions such as Bell's Palsy and deep tissue injuries. Through these applications, the cosmetic benefits of Microcurrent were discovered. Microcurrent is safe and non-invasive and works in harmony with the natural energy system of the body. Unlike other non-invasive facial treatments, Microcurrent causes no discomfort, swelling or redness.

What is Therapeutic Light and Color?

Therapeutic Light and Color is what sets ELR apart from other electro-facial treatments. Light and color have remarkable healing effects on the body. By combining specially selected colored light to the correct acupoints of the body, we are able to address the specific needs of each individual client. The combination of Microcurrent and color light therapy provides positive and lasting results.

How many ELR™ sessions are required?

Each person is different, and your skincare or wellness professional will assess your unique needs. Generally speaking, 10-20 treatments are recommended. However, you will notice a difference in the way you look and feel after the first treatment. By the third session, friends and family will notice. More dramatic results are seen around treatment 10. Since there is no downtime required for healing, treatments can be performed consecutively under the direction of your skincare or wellness professional.

What makes Vibrational Beauty Skin Renewal products different from other skincare lines?

Vibrational Beauty products were specifically developed to assist the rejuvenation effects of the ELR treatments. Our products are made only with the purest, natural ingredients to benefit the skin and unlock the healing process of the body, stimulating collagen production, firming the skin and evening its tone. You will notice the difference after the first application!

Real Results from Real Clients!

The results below occurred after ONLY 7 SESSIONS!

Toned Forehead and Reduced Redness

Client: Claire R.
City: Encino
Age: 40s

Claire has rosacea and was a smoker for several years. For Claire, the results were immediate. The lines on her forehead and around her eyes virtually disappeared. Her lips became fuller. The rosacea became less inflamed and the tone and texture of her skin significantly improved. Like many of us, Claire lives a very stressful and busy life. She found the Energy Light Rejuvenation treatments to be very calming and relaxing. And, as a side note, Claire's husband noticed such a change in her appearance that he has inquired about the treatments for himself!

Firmer Jaw Line

Client: Carmen P.
City: Los Angeles
Age: 40s

Carmen suffered from cystic/severe acne for many years. Since beginning her Energy Light Rejuvenation treatments, she has not had one breakout. Carmen showed visible firming in the jaw line and around the nasal labial folds. Carmen also saw an immense improvement in the tone and texture of her skin. She feels as vibrant as she looks!

The Next Level is a Vibrant You!

More than a cosmetic procedure, ELR is a revitalization process for the entire body designed to make you look and feel renewed. Lose that under-eye "baggage"! Turn jowls into a jaw-line! Look rested, awake and revitalized!

- Non-Invasive
- No Side Effects
- No Pain
- No Downtime for Healing
- Holistic

Therapeutic Light and Color

The magic of ELR is the use of color. Color is how the body communicates on the cellular level. Through the application of color light at targeted acupuncture points, information is fed to the body. This information is delivered directly where it is needed to balance the body and bring your innate beauty to a new level that's beyond any other non-surgical treatment.

Inner Balance = Outer Beauty

You'll feel and see the benefits of ELR after the first treatment. Noticeable results generally occur after three treatments. Dramatic results after 10. There are no side effects to ELR, only side benefits! Therefore, you can undergo consecutive treatments to speed results!

Take Your Beauty to the Next Level Now!

Anyone can benefit from ELR treatments. ELR whole body rejuvenation will take your beauty to the next level! Why wait? Extraordinary results are waiting for you right now!
