

How do I get started?

Contact the counselors at Jones Behavioral Health to schedule your initial assessment. Let them teach you how to control your anger before your anger controls you.

Who We Are

Our practice firmly attests to the belief that the individual's healing process and satisfaction with their therapy sessions are all directly impacted by their surroundings. This is why our clinical and administrative staff ensure that every individual is provided with a warm and friendly atmosphere each time they visit our facility. We are a Georgia state-licensed facility serving the Central Savannah River Area. We offer counseling, small business consultation, and life coaching services, helping people overcome life's challenges, kick bad habits, or make improvements in their personal and professional life. Our specialties include, but are not limited to the treatment of depression, anxiety disorders, substance abuse, relationship problems, and grief counseling.
