

“I AM this night painting before you the vision of the Holy City, the magnificent City Foursquare, the divine kingdom that shall come upon earth even as you keep the flame. And whenever you see reports of problems, of crises, of injustices in your newspapers, I am calling by the power of Elohim in the name of Almighty God with the permission of your Holy Christ Selves that that vision of the City Foursquare shall flash forth from your consciousness into the world, into that situation, into the problem areas as a divine matrix of the cosmic cube, that City Foursquare that is the key to each man’s overcoming, the key to the ascension of the very planet itself. ”

Beloved Cyclopea

“Vision for the City Foursquare”

“Within your casual body there is the full momentum of energy of the Elohim and of Almighty God to fulfill his purpose and his will. For every seed that God has created, he has placed within the seed the necessary blueprint and energy for the bringing forth of the full plant. Adding to this the sun, the water and the earth and all the necessary ingredients that God has placed in the environment, it is of a certainty that the seed that is within itself, the seed of Almighty God, will cycle through the four planes of Mater. “
