

The Edenites oath of awareness and commitment:

1. WE are the descendants of the original people on earth. All human races are our brothers and sisters. Melanin /dark skin and kinky hair, that is are our heritage.
2. WE members of the human family share with each other and protect each other from all known predators, hurt, harm and danger.
3. WE know our mission in life. It is to help each other to improve our collective lives.
4. WE must uplift fallen humanity and save the planet from destructive forces.
5. WE put people before power, profit and property. WE know that symbiotic relationships / mutual cooperation is a much better system than predatory capitalism and unfair, unsportsmanlike competition.
6. WE know that conflict resolution and mutual human respect can benefit the individual and the community.
7. WE know that mind-set trumps skin color and all other physical attributes, traits and flaws
8. WE know that this planet's resources are more than adequate for all to live in abundance and harmony.
9. WE know that Monopoly financed Capitalism gave us Slavery. The vestiges of it are still with us today in the forms of Wealth Disparity, a struggling middle class and rampant poverty.
10. WE know that mutual human respect is requisite for the continued existence of man.
11. WE know the truth. "Project Symbiosis" is a community working together. It is superior to all other political-socio-economic-systems.

LOVE, TRUTH, PEACE, FREEDOM, JUSTICE,

RESPECT, ECONOMIC EMPOWERMENT & SELF DETERMINATION - JOIN US !
