SOCORRO HEAD START & EARLY HEAD START

MESSAGE FROM THE DIRECTOR:

We are thrilled to announce that we'll soon be starting our spring planting. This season, we're looking forward to using our school garden to its fullest potential. It's an excellent opportunity for our children to get hands-on experience with nature and learn about growth, sustainability, and responsibility.

Your involvement is key to making this experience even more special. Whether it's helping out during planting sessions, sharing your gardening expertise, or simply encouraging your child's interest in nature.
