City Lights Art Gallery is happy to announce Photographer, Eric Courtney, will present "Under Water," a photographic exhibit, as the Featured Artist of the Month in June, 2018. Eric has discovered that through his photography he can bring great joy to people's lives. From candid animal portraits to expressive artistic creations Eric is gratified by the responses to his photographic art. Says Eric, "I love watching people react or interact with an image or piece of art I have created. I think of this as the joy of photography. Whether it's capturing a once-in-a-lifetime image, or creating a one-of-a-kind piece of art, I enjoy knowing that when somebody purchases a piece, they will enjoy it for many years to come."

Eric is vice president of the city lights artists' co-op and a vital part of the marketing team where he serves as social media guru, webmaster, and photographer. He shares his tremendous gratitude to City Lights Art Gallery for the many opportunities that have come his way since becoming a member.
