- Choices:** We offer a variety of training courses and audit certification based on industry best practices.
- Quality:** Our consultants and instructors are highly experienced and certified. We select consultants and instructors based upon their depth of knowledge and real world experience.
- Location:** We are conveniently located in Columbia, MD which is central to the greater DC/Baltimore Metro areas for local, state and federal government engagements. Our geographical reach is not limited to the DC/Baltimore Metro area. With various training delivery options, we are able to accommodate nationally and internationally.
- Delivery:** We offer flexibility in training delivery options: Classroom, Virtual Classroom, eLearning, Blended. We can customize course schedules to minimize time away from the office.
- Integrity:** We operate according to a strict code of conduct that requires a high level of professional and personal integrity for all trainers, auditors and consultants.
- Expertise:** We invest heavily in training and certifying our staff.
- Leadership:** With over 25 years Information Technology, Quality and management background, our leadership bring real world experiences to every engagement.

## Past Performance

"The instructor provided real life scenarios examples and made me see the connection and relevance of how we are using most of the processes and functions in our current job."

**ROYAL ALBERT**  
ENGLAND 1904

"Great instructor. Made the boring material interesting."

**ROYAL DOULTON**  
LONDON 1815

"The instructor was very knowledgeable. The topic by nature is fairly dry. But instructor's willingness to use real life examples and insights to the differences between what ITIL looks for and what real life dictates helped me better understand the material."

**WATERFORD**  
**WEDGWOOD**  
ENGLAND 1759
