MEMORY GLASS™

your cremation keepsake company

Memory Glass is a family business inspired by the loss of a close friend. The recipient of his ashes, a glass artist, created the first “memories” as creative and respectful memorials. It was one of these inspiring pieces that started our company.

In 2002, Memory Glass opened its studio and began creating personalized, artistic accompaniments to traditional memorials. Over the past few years we’ve refined our processes to create thousands of options, allowing you to customize your Memory Glass to reflect the memory of your loved one.

Memory Glass is a keepsake, and as such, each piece is made with only a small amount of remains. Therefore, your Memory Glass can serve as an accompaniment to scatterings, burials or urns. Also, each member of your family can customize a lasting, tangible tribute that reflects their own memory of your loved one.

In the following pages you will find pictures and descriptions of our products, including designs, colors, and processes. If you have any questions or concerns, please contact us and we can assist you in creating your perfect memorial.

Because “memories” are forever...

TESTIMONIALS

Dear Nick,

We picked up our Memory Glass... and it is even more beautiful than we had imagined it would be. It is a great comfort to have this lovely work of art as a tribute to a family member who has left us in body but will always be with us in spirit.

Thank you also for the remaining ashes and for all of your patience with my many phone calls to you these past months. As you can imagine, this has been a difficult time and your calm demeanor (and willingness to take my calls!) made the wait for this closure more bearable.

Gratefully,
Miriam Perry

Nick,

I received my Memory Glass this morning certified mail – and am truly in awe of its beauty.

... There are no words to describe what she meant to me. My loss, after 15 1/2 years, was unspeakable. I was so reluctant to release any of her ashes to you – and yet what I got in return for taking that risk is a true testament to the beauty and love she brought to my life. It is truly more beautiful than I could have ever imagined.

Thank you again for everything.

Sincerely,

Stephanie

Dear Memory Glass,

Thank you very much for my beautiful keepsake of my husband. It is such an amazing work of art. I have it in front of me as I write to you and see it as the freedom of my husband's spirit as he is today in heaven.

This Memory Glass is the absolute most perfect gift that my family will treasure for each of our lifetimes on this earth. It is my families' first heirloom. It is amazing. I love it.

With love, hope and faith,

Linnie Blankenbecler
