

Notice to Snowbirds

Regarding securing your property prior to heading North!

Rules and Regulations 2, C, (3) in the section stating what can be left in view on your property states:

".....When owners leave for more than 30 days, items shall be secured."

The following park volunteers did a LOT of work last summer securing items that should have been stowed before heading north.

Linda Langer, Honey Sakash and Judy Brause.

This list is what they encountered and had to take care of:

Birdbaths

Tables and chairs

Swings

Potted plants, trees, flowers – live and artificial

Statues, gnomes, Disney characters and yard animals

Decorative sea shells

Lightweight garden plaques

Gazing balls

Flags of all sizes

Garden hoses and reels

Green downspout splash pans

Umbrella clotheslines

Decorative items not securely fastened to shed walls (birds, butterflies, etc.)

Screen room items not tethered down (they need to be!)

**SNOWBIRDS PROBABLY KNOW
MORE ABOUT THE STORM
THAN SUMMER RESIDENTS.**

**There was no
radio/TV/internet and cell
phones were mostly dead.
One Call was sporadic in the
park without electricity but is
used to communicate with
outside residents.**

**Please do not call summer
residents for updates!!!**

*****Freezers and refrigerators need to be emptied** (due to electricity out, the dumpsters didn't work and rotting food sat in the garbage trailer!!!)***

Golf carts (*if not covered*) always put front windshield down so winds do not blow it out.

Remove items from golf carts that can blow away (pencils, notepads, strings, gloves, etc.) Tuck you cart away in the corner of your carport so it catches the least amount of wind. Chain it to something secure.
