Cuvée Eva White Vintage 2015

Climatic conditions: the Galilee region is traditionally dry with hot days and cool nights, especially in Spring and Summer. The rainy season is between November and March and annual precipitation this year was 664mm.

Harvest: Roussane and Marsanne were hand picked in August. Grenache Blanc and Clairette a week later. Grapes were picked early compared to other vintners in Israel in an effort to keep acidity and balance in the wines.

Fermentation in stainless steel tanks of grape juice only, no Malolactic fermentation for the first year, to keep freshness in the wines.

10% Roussane –

Bottled in April 2016

- **Acidity:** 4.9 g/l
