

95' Tugboat hydraulic package

Marine Hydraulic Steering Packages

Our steering packages are built with high quality components that are built for the demands of workboat applications. We extended a 12 month warranty protection on all packages.

- ▶ Redundant split steering system with split hydraulic steering oil tank.
- ▶ All hydraulic components used on steering systems are in stock 99% of the time. Meaning less than a day lead time on any failures that might occur in the field.
- ▶ Soft shift electric directional valves are supplied on request to relieve the old "bang-bang" steering.
- ▶ Extra welded collars installed in hydraulic tank for any alarms you may need.
- ▶ All hydraulic packages are custom to your needs. You tell us what you need and it will happen.
- ▶ Robust Kobelt electronic steering components supplied with packages

Who We Are

About Us

Pneumatic Specialties has been in business for over twenty years, offering a wide variety of services to meet our customers' needs. With our qualified team, you can count on expert advice and guidance on finding the optimal solution that is right for you.
