

CONTREP™

Innovative Container Repair Systems

What is CONTREP?

CONTREP is a one-of-a-kind container repair system with an **innovative** and **patented design** that has been created specifically to **simplify and revolutionize virtually any type of container repair.**

Our repair systems correct bulges and dents caused by blunt force damage on virtually any part of a container with minimal physical effort required; **only one person is needed for full operation!**

Besides significantly reducing the amount of manpower and effort needed to complete repairs, our container repair systems also minimize the material costs associated with rebuilding walls and the hours of welding these repairs would usually require.

Uses & Benefits

Our CONTREP container repair systems have been carefully designed to effectively repair and restore damaged container surfaces at any height or location including:

- ◆ Walls
- ◆ Ceilings
- ◆ Corner Posts
- ◆ Door Frames

CONTREP™

Innovative Container Repair Systems

Uses & Benefits (continued)

Some additional benefits that only CONTREP can provide for container repairs:

- ◆ Increase productivity & reduce repair times by 40-70%
- ◆ Reduce manpower and physical effort necessary for any repair
- ◆ Greatly reduce or eliminate the need for additional materials and welding
- ◆ Reduce repair costs (materials, labor)
- ◆ Greatly increase quality of repairs both structurally and visually
- ◆ Reduce risk of workplace injuries by requiring less physical effort

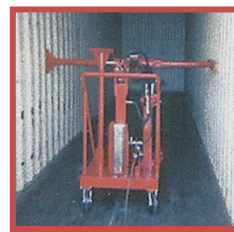

CONTREP™ Model R-04 & R-05

CONTREP is the **ONLY** container repair system in existence that is capable of correcting door frames that are out of alignment; a first in the container repair industry!
