

Ceramic Tile Cleaner

Cleans all ceramic tile surfaces

Description

R&D Ceramic Tile Cleaner is a specially formulated, water-based cleaner designed to leave no residue on ceramic tiles. Environmentally friendly, and biodegradable, Ceramic Tile Cleaner cleans with no rinsing required.

Typical Uses

- Daily maintenance of all types of ceramic tile surfaces
- Also suitable for natural stones such as marble, granite or limestone

Limitations

- · Always test a small area to ensure suitability
- · Keep from freezing
- Store between 10-32°C (50-90°F)

Application

- Read all instructions thoroughly before applying
- Spot Cleaning: Spray R&D Ceramic Tile Cleaner directly on terry cloth mop and wipe on surface to remove soils
- Entire floor: Spray R&D Ceramic Tile cleaner directly over surface and wipe with a clean terry cloth mop

Theoretical Coverage

• Up to 186 m² (2000sq.ft.) per 946ml bottle

Safety Precautions

Concentrated Marble Cleaner

Streak free and Biodegradable

Description

R&D Concentrated Marble Cleaner is a biodegradable, neutral pH cleaner designed specifically for use on natural stone surfaces

Typical Uses

- Ideal for use on marble, granite, terrazzo, agglomerate and other highly polished surfaces
- Excellent performance in heavy traffic areas

Limitations

- Always test a small area to ensure suitability
- Keep from freezing
- Store between 10-32°C (50-90°F)

Application

- Read all instructions thoroughly before applying
- For tough cleaning problems, spray Concentrated Marble Cleaner directly on surface
- Scrub with a nylon or bristle brush
- · Rinse surface will with clean water
- For light cleaning, dilute by adding up to 125 mL (4 oz US) Concentrated Marble Cleaner to 8L (2 gal US)

Theoretical Coverage

• 473mL (1 pint US) will make approximately 60 litres (16 gal US) diluted.

Safety Precautions

Deep Clean Grout Cleaner

Penetrating cleaner for grout joints

Description

R&D Deep Clean Grout Cleaner is a powerful neutral cleaner designed to remove grease, food stains, soap scum, hard water deposits, dirt and soil from grout joints.

Typical Uses

 Designed for use on sanded and unsanded cementitious grout and surrounding tile

Limitations

- Always test a small area to ensure suitability
- DO NOT USE on polished marble or limestone
- Do not allow cleaner to come into contact with any non-recommended surface
- Keep from freezing
- Store between 10-32°C (50-90°F)

Application

- Read all instructions thoroughly before applying
- Apply a uniform coat of Deep Clean Grout Cleaner onto grout joint
- Let stand 5-10 minutes
- Agitate with the scrub brush provided
- Rinse thoroughly with clean water
- Repeat if necessary

Theoretical Coverage

 236mL (8 oz. US) will clean approximately 3-8m² (25-75 sq.ft.)

Safety Precautions

Easy-Shine

Concentrated floor cleaner

Description

R&D Easy-Shine is a non-streaking, biodegradable, rinse-free, concentrated cleaner designed to give a mirror-like shine once applied.

Safety Precautions

Please refer to product Safety Data sheet.

Typical Uses

- Clean all types of ceramic floors
- Also cleans vinyl surfaces

Limitations

- Always test a small area to ensure suitability
- Keep from freezing
- Store between 10-32°C (50-90°F)
- Dilute per instruction on bottle before use

Application

- Read all instructions thoroughly before applying
- Add 125ml (4 fl.oz) R&D Easy-Shine to 8.0 L (2 Gal US) warm water
- Mop or sponge over area to be cleaned
- No rinsing required
- For heavily soiled areas, mix 250 ml (1 cup) into 8.0 L (2 US Gal); rinsing may be required at this level

Theoretical Coverage

Varies dependent upon level of soiling and dilution

Epoxy Grout Residue Remover

Removes dried epoxy grout residue

Description

R&D Epoxy Grout Residue Remover is a product developed to safely remove dried epoxy grout residue from ceramic tile.

Typical Uses

- May be used indoors or outdoors at temperatures between 10-25°C (50-77°F)
- To remove epoxy grout residue from ceramic, porcelain, natural stone, quartz composite and cement

Limitations

- Not recommended for use on acrylic bath or shower surfaces
- Do not use on stainless steel
- · Always test a small area prior to use
- May damage quartz composite stone if left on surface for longer than 2 hours
- Keep from freezing
- Store between 10-32°C (50-90°F)

Application

- Read all instructions thoroughly before applying
- Test on a small area to ensure suitability
- Apply over tile using a brush
- Let stand for suggested time, scrubbing the surface every 10 to 15 minutes with a nylon scrubbing pad or brush
- Do not allow product to dry on the surface to be cleaned

- When residue is softened and loose, scrub surface with soapy water
- Remove cleaning solution with a dry cloth
 - Rinse area thoroughly with water
- Application may be repeated if necessary

Application Time

- Application time may vary
- For grout cured 24-48 hours, product application time is approximately 1-3 hours
- For grout cured 72 hours or more, product application time is 8 hours or more

Theoretical Coverage

Approximately 1-5 m² (10-50 sq.ft.) per 946mL bottle

Safety Precautions

Grout & Tile Cleaner

Cleans and revitalizes grout

Description

R&D Grout & Tile Cleaner is specially formulated to remove mildew, soap scum and other films as well as brightening ceramic tile and grout joints.

Typical Uses

- · Designed for use on all ceramic tiles
- Safe for use with all coloured grouts

Limitations

- Always test a small area to ensure suitability
- Not for use on natural stones such as marble, granite or limestone
- Keep from freezing
- Store between 10-32°C (50-90°F)

Application

- Read all instructions thoroughly before applying
- Apply Grout & Tile Cleaner with spray applicator onto dirty areas and scrub with a sponge
- For tough cleaning problems, scrub with a stiff brush
- Thoroughly rinse all surfaces with clean water after application
- Repeat if necessary

Theoretical Coverage

 473mL (1 pint US) will clean approximately 9m² (100 sq.ft.) dependent on porosity of grout and size of joints

Safety Precautions

Grout Residue and Haze Remover

Cement Film Remover

Description

R&D Grout Residue and Haze Remover is an acidbased product developed to safely remove cement grout residue and efflorescence from ceramic tile and grout.

Typical Uses

- For use on ceramic tile, grout joints, chrome and stainless steel
- Removes grout residue from ceramic tile, grout joints, chrome and stainless steel

Limitations

- Not recommended for use on natural stone surfaces such as marble, travertine, etc.
- DO NOT USE HOT WATER
- · Always test a small area prior to use
- Some high gloss glazed tile will etch when in contact with acids
- Keep from freezing
- Store between 10-32°C (50-90°F)
- Grout must be sufficiently cured

Application

- Read all instructions thoroughly before applying
- Apply over tile
- Let stand for 10 to 15 minutes
- Scrub with a nylon scrubbing pad or brush in a circular motion until residue is removed

- Do not allow product to dry on the surface to be cleaned
- Rinse thoroughly with lukewarm water
- A second application may be required in Latex grout applications

Theoretical Coverage

Approximately 7-32 m² (75-350 sq.ft.) per 946mL bottle

Safety Precautions

Hard Surface Cleaner

Streak Free Cleaning

Description

R&D Hard Surface Cleaner is a specially formulated cleaner, designed to leave no residue on fine parquet, laminate, hardwood, ceramic, vinyl and all stone surfaces.

Features

- Environmentally friendly; low VOC
- Biodegradable
- Mild and convenient
- Does not leave streaks or residue

Limitations

• Always test product prior to application to ensure satisfaction

Application

- Read all instructions thoroughly before applying
- Spot Cleaning: Spray cleaner directly on terry cloth mop or cloth and wipe surface to remove soil
- Entire Floor: Spray cleaner lightly over surface and wipe with terry cloth mop or cloth

Theoretical Coverage

 Up to 186m² (2000 sq. ft.) per 946ml/32 oz. bottle

Safety Precautions

Luxury Vinyl Cleaner

Streak Free Cleaning

Description

R&D Luxury Vinyl Cleaner is a specially formulated cleaner, designed to leave no residue on fine Luxury Vinyl Tile, Luxury Vinyl Plank and all other vinyl flooring.

Features

- Environmentally friendly; low VOC
- Biodegradable
- Mild and convenient
- Does not leave streaks or residue

Limitations

• Always test product prior to application to ensure satisfaction

Application

- Read all instructions thoroughly before applying
- Spot Cleaning: Spray cleaner directly on terry cloth mop or cloth and wipe surface to remove soil
- Entire Floor: Spray cleaner lightly over surface and wipe with terry cloth mop or cloth

Theoretical Coverage

 Up to 186m² (2000 sq. ft.) per 946ml/32 oz. bottle

Safety Precautions

Marble Cleaner

Natural stone surface cleaner

Description

R&D Marble Cleaner is a neutral cleaner that is designed to clean marble, terrazzo or other highly polished surfaces.

Typical Uses

 Ideal for cleaning and maintaining marble, granite, terrazzo, agglomerate and other sealed tile and stone surfaces

Limitations

- Always test a small area to ensure suitability
- · Keep from freezing
- Store between 10-32°C (50-90°F)

Application

- Read all instructions thoroughly before applying
- Spray directly on surface and wipe off, using a terry cloth mop or a sponge
- · Rinsing not required

Theoretical Coverage

 Approximately 140-186 m² (1500-2000sq.ft.) per 946ml (1qt US) bottle

Safety Precautions

Mould/Mildew Remover

For use in bathrooms and showers

Description

R&D Mould/Mildew Remover is an easy to use sprayon cleaner that effectively destroys mould and mildew found in any humid or moist areas, such as bathrooms and showers.

Typical Uses

- Formulated for use in bathrooms
- Also excellent for garages, utility rooms, cellars, or anywhere fungus, moss or algae growth is prevalent

Limitations

- Always test a small area to ensure suitability
- Keep from freezing
- Store between 10-32°C (50-90°F)

Application

- Read all instructions thoroughly before applying
- Spray R&D Mould/Mildew Remover liberally over desired area
- Allow solutions to sit for 10-15 minutes
- In heavily soiled area, after solution has penetrated, use a small nylon brush to scrub
- Rinse thoroughly with water and a sponge

Theoretical Coverage

 approximately 70-116m² (750-1250 sq.ft.) per 946ml (1 qt.US) bottle

Safety Precautions

Natural Stone Cleaner

Environmentally Safe and Streak Free

Description

R&D Natural Stone Cleaner is a neutral cleaner formulated for no-rinse and streak free cleaning

Safety Precautions

Please refer to product Safety Data sheet.

Typical Uses

 Ideal for cleaning and maintaining marble, granite, terrazzo, agglomerate and other sealed tile and stone surfaces

Limitations

- Always test a small area to ensure suitability
- For new installations, grout must cure at least 48-72 hours
- Keep from freezing
- Store between 10-32°C (50-90°F)

Application

- Read all instructions thoroughly before applying
- Spray directly on surface
- Wipe using mop or sponge
- For heavily soiled areas, use Concentrated Marble Cleaner

Theoretical Coverage

 Up to 140-186m² (1500-2000sq.ft.) per 946 (1 qt.) bottle

Parquet, Laminate & Hardwood Floor Cleaner

Environmentally friendly and Streak Free

Description

R&D Parquet, Laminate & Hardwood Floor Cleaner is an environmentally friendly, biodegradable cleaner which leaves no residue and does not require rinsing. R&D Parquet, Laminate & Hardwood Floor Cleaner will dry to a streak-free finish.

Typical Uses

- For general cleaning of urethane and wax finished parquet, laminate and hardwood flooring
- · Also for use on cork flooring

Limitations

- · Keep from freezing
- Always test product in a small area to determine suitability
- Do not spray directly on floor and allow to dry

Application

- Read all instructions thoroughly before applying
- Spray directly on a terry cloth mop or sponge and wipe intended surface
- No rinsing necessary
- Can be sprayed directly on floor for spot cleaning

Theoretical Coverage

• Up to 180 m² (2000 sq.ft.) per 946ml (1qt.) bottle

Safety Precautions

Pre-Mixed Grout Haze Remover

Removes dried premixed grout residue

Description

R&D Premixed Grout Residue Remover is an acid based product developed to safely remove dried premixed grout residue from ceramic tile.

Typical Uses

Ideal for use with all premixed grouts

Limitations

- DO NOT USE HOT WATER
- New grout must have cured at least 28 days
- Always test a small area to ensure suitability
- Some high-gloss tile will etch when in contact with acids.
- Do not use on natural stone surfaces such as marble, travertine etc.
- Keep from freezing
- Store between 10-32°C (50-90°F)

Application

- Read all instructions thoroughly before applying
- Apply over tile and let stand for roughly 10 to 15 minutes
- Scrub with a scrubbing pad or sponge in a circular motion until pre-mixed grout residue is removed
- Rinse area thoroughly with water
- A second application may be required in latex grout applications

Theoretical Coverage

Approximately 7-32 m² (75-350 sq.ft.) per 946mL bottle

Safety Precautions

Stainless Steel & Chrome Cleaner

Streak Free Clean

Description

R&D Stainless Steel & Chrome Cleaner effectively removes streaks, water spots & finger prints from stainless steel sinks, appliances, faucets, bathroom fixtures and glass.

Features

- Environmentally friendly
- Wipe on and buff for shining clean with no residue

Limitations

- Always test a small area of surface to ensure suitability
- Use at room temperature
- Do not freeze

Application

- Read all instructions thoroughly before applying
- Remove food from area to be cleaned
- Shake well
- Apply to a clean, soft cloth and wipe along grain of metal surface
- Wait 3-4 minutes, then buff with a clean, dry cloth

Theoretical Coverage

 46-110 m² (500-1200 sq. ft.) per 946ml/32 oz. bottle

Safety Precautions

Tile, Granite & Marble Countertop Cleaner

Streak free and Biodegradable

Description

R&D Tile, Granite & Marble Countertop Cleaner is a neutral pH cleaner that gently cleans surfaces such as marble, granite, and agglomerate countertops.

Safety Precautions

Please refer to product Safety Data sheet.

Typical Uses

- Ideal for use on natural or cultured marble, and granite countertop surfaces
- For delicate surfaces, a test area is strongly recommended prior to use
- Excellent for kitchen use

Limitations

- Always test a small area to ensure suitability
- Keep from freezing
- Store between 10-32°C (50-90°F)

Application

- Read all instructions thoroughly before applying
- Spray Countertop Cleaner on the marble/granite surface
- Wipe with a clean dry terry cloth or paper towel
- No rinsing required

Theoretical Coverage

 473mL (1 pint US) will clean approximately 28m² (300 sq.ft.)

Tub Surround & Tile Cleaner

For fibreglass and ceramic

Description

R&D Tub Surround & Tile Cleaner is specially formulated to remove mildew, soap scum, and other films as well as brighten ceramic tile and fibreglass tub surround enclosures.

Typical Uses

- Ideal for use on all ceramic tiles
- Safe for use on fibreglass tub surrounds and shower enclosures

Limitations

- Always test a small area to ensure suitability
- Keep from freezing
- Store between 10-32°C (50-90°F)

Application

- Read all instructions thoroughly before applying
- Spray Tub Surround & Tile Cleaner to dirty areas and scrub with sponge
- For tough cleaning problems, scrub with a stiff bristled brush
- Rinse all surfaces well with warm clean water

Theoretical Coverage

 approximately 70-116m² (750-1250 sq.ft.) per 946ml (1 qt.US) bottle

Safety Precautions
