PICK-UP

ZONE

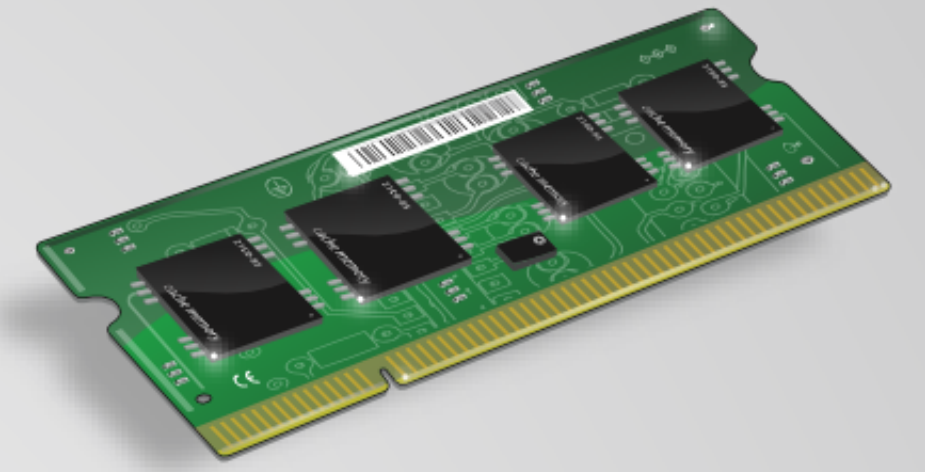

We Pick Up. Diagnose. Repair. Deliver.

PC 

Pick-Up Zone

TECH 2 IT is proud to announce our PC repair Pick-Up Zone: a new service that can be provided to a business' employee benefit package at no additional cost to the employer. We cater to employees' personal computer needs by offering a convenient service to pick-up, diagnose, repair and deliver PCs or MACs to your place of business.

Pick-Up. Diagnose. Repair. Deliver

PC and MAC repairs of any kind, including hardware and software solutions, are no problem for our highly trained technicians. Whether your employees need help with their home desktop, personal laptop or applying the latest printing and scanning apps onto their smartphone; our degreed and certified computer professionals can assist their needs in a timely and professional manner.

About Us

Since 2004, TECH 2 IT has specialized in assisting small and medium-size businesses and residential customers with their onsite IT needs. TECH 2 IT is known for our outstanding computer repair, server administration, server installation, network development/support, cabling solutions, project management, and web development.

Trust

TECH 2 IT is a trusted IT company, whose technicians are college degreed and network certified engineers. TECH 2 IT is a valuable resource that you can trust when you or your employees need an honest, dependable, experienced IT professional to solve your computing problems. Please feel free to ask us for our professional references! We are proud of our services and want you to feel confident in us too.

TECH 2 IT goes green by offering recycling of your no longer needed computers, monitors, phones, printers and electronics.

Contact us today to schedule a pick up.
